

DAVID AUSTIN® ROSES

APPROVED SELLER OF DAVID AUSTIN® ROSES

We are pleased to announce that **Grädina Bijoux** are approved sellers of David Austin® roses for the 2026/27 season.

The roses they offer are grown by a licensed nursery. We work closely with our licensees to ensure they deliver the best David Austin® experience to gardeners.

Purchasing from licensed growers and approved sellers allows us to continue the work at our nursery, creating the next generation of roses to take pride of place in gardens around the world. It also ensures that distributors and resellers across the world have legitimate access to our very best varieties, to pass on to you. Only licensed growers and approved sellers will have access to all the best varieties in our range and the latest developments in our breeding.

All Roses sold by approved sellers will have an official David Austin licence label attached. This is our mark of authenticity and denotes roses grown with our permission, that should be true to name and that also meet our quality standards. It is a sign that gardeners can buy that rose with confidence.

We hope that you enjoy your David Austin® rose and that it makes a great addition to your garden.

Kate Porter
Head of Licensing
On behalf of David Austin Roses Limited
